People to assemble

Tools required

Please check the pack contents before attempting to assemble this product. A full checklist of components is given in this leaflet. If any components are missing, please contact the retailer from whom you bought this product.

This product is **HEAVY**, it should be assembled as near as possible to the point of use. **TAKE CARE WHEN LIFTING** to avoid personal injury and (or) damage to the product.

This product takes approximately **15 MINUTES** to assemble with **2 PERSON**.

The fittings pack contains **SMALL ITEMS** which should be **KEPT AWAY FROM YOUNG CHILDREN**.

Read this leaflet in full before commencing assembly.

PLEASE KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE

Fittings and parts checklist

A	Table top x1	
B	Leg x2	
C	Countersink bolt x8 M8x80mm	
D	Barrel nut x8 M8x19mm	
E	Allen key #5 x1	

Step by step assembly instructions

Step One

With 2 people, carefully place the table top (part A) upside down on a soft, flat surface near where the unit will be used. Locate the barrel nut (part D) and make sure that each barrel nut is positioned as shown below.

Step Two

Locate the legs (part B) as shown below then secure using the countersink bolts (part C) and screwdriver (not included). To speed up assembly, first screw in the bolts by hand and then tighten fully using the allen key (part E).

Step by step assembly instructions

Step Three

With 2 people, carefully turn the table over and place in position.

PLEASE READ!

This veneered product top has a natural open grain finish. Please read the care guide thoroughly. We recommend using mats and wiping up spilled liquids immediately. Avoid placing plant pots or vases with out waterproof mats to prolong the life of this product.

Care and Maintenance

Wood furniture

- Wood displays different grain patterns depending on which way they cut - for example, the 'medullary rays' which can appear is a mark of good quality timber - these are just characteristics of the natural beauty of the wood. Some furniture is also deliberately aged and rustic.
- Wood veneers also allow distinctive patterns to be created on flat surfaces, such as table tops and drawer fronts by the way the slivers are arranged.
- All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

How to care for your wood furniture

- Furniture with a hard lacquer, wax polish or painted surface should be dusted with a dry cloth.
- Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.
- Make sure all surfaces are protected from heat and liquids by mats and coasters. Wipe up spills immediately and ensure that a mat or pad is placed under paper if you are writing.
- Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping.

Metal elements warning

- This product has metal elements legs that can scratch. Please avoid contact with hard, sharp objects.
- A slightly damp cloth is the best cleaning agent. Dry and polish with a non abrasive soft cloth.
- Do not use any abrasive cleaner or harsh detergent on the metal elements as this can damage the surface. Avoid spilling or dropping crumbs of food with a high fat content on the surface as this can permanently mark the metal.

Safety instructions

- Never drag furniture when moving it, always lift it.
- Do not sit or stand upon this product.
- Periodically check all fixings to ensure none have come loose and re-tighten where necessary.
- Please take care when handling or moving the furniture, careless handling may cause damage or injury.
- Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.
- It is recommended that before moving heavy objects to a new location they are completely dis- assembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.

Experiencing problems with your new product?

Before calling customer service, please have your item's batch code ready.

You can find the batch code on the back or bottom of your product as below shown.
