

POLAR

receveur de douche extra-plat aspect pierre
blanc, gris ou noir
format carré ou rectangulaire

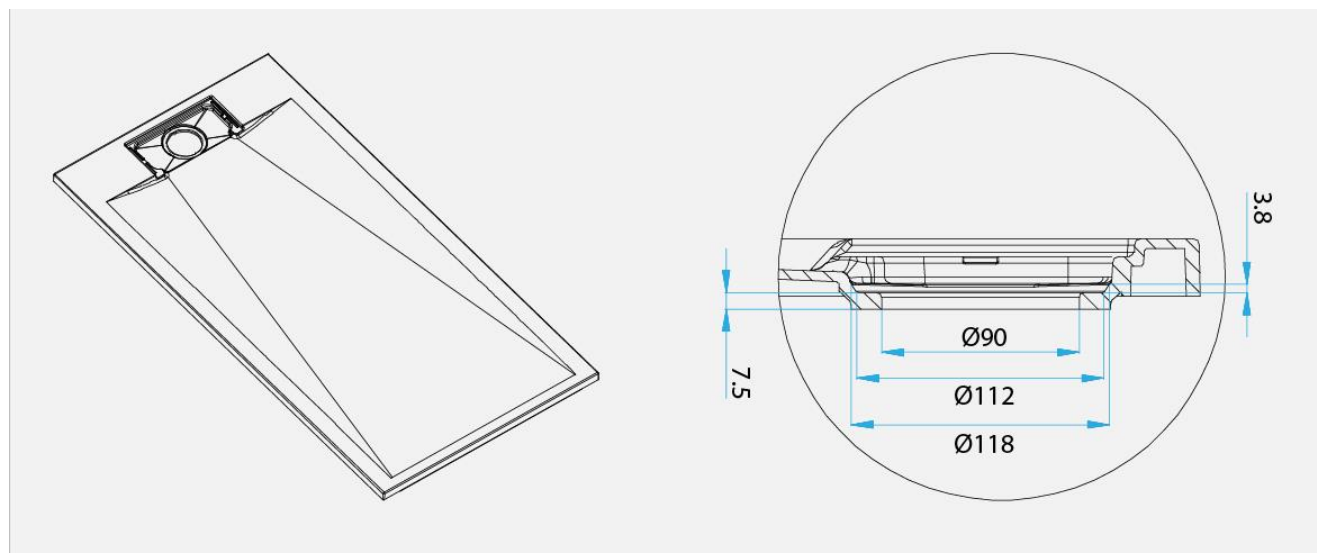

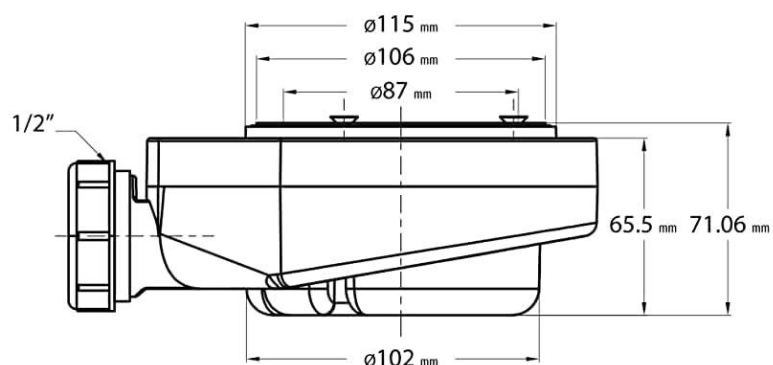

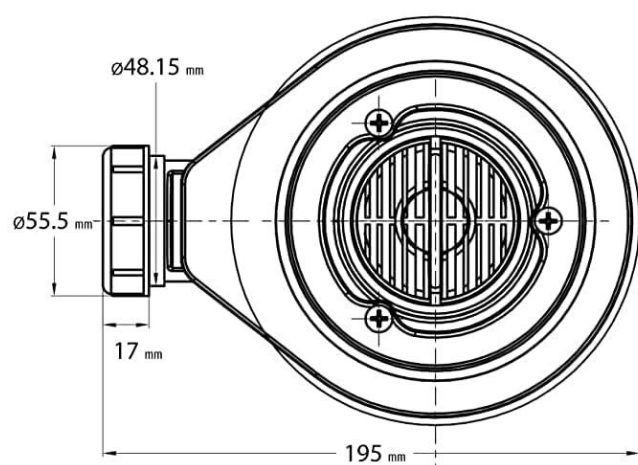

Installation du receveur : **à poser, semi-encastré ou encastré**

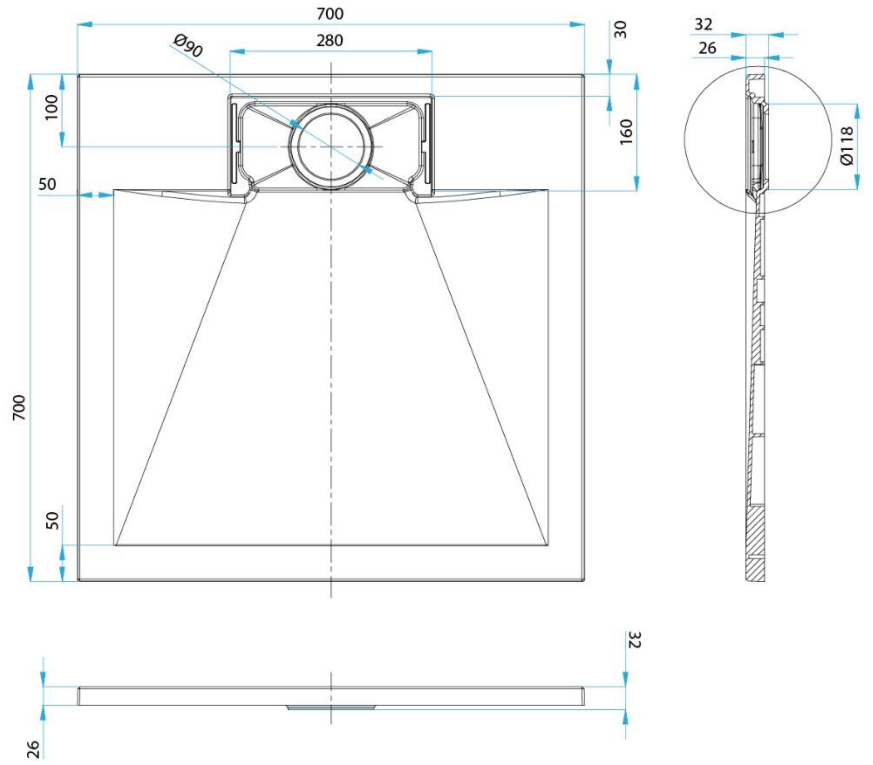

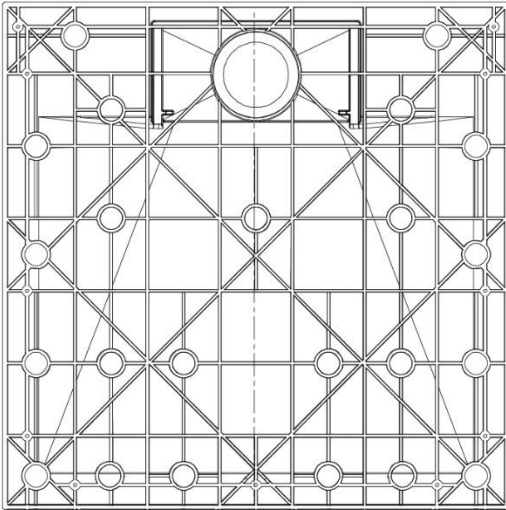

Pour garantir l'étanchéité et s'assurer d'obtenir une pose conforme aux règles de l'art, Saniverre vous recommande de faire installer le receveur de douche par un artisan qualifié qui vous remettra une facture. Selon la nature du projet (*construction ou rénovation de la salle de bain*), l'artisan pourra conseiller le type d'installation le mieux adapté au chantier (décaissement, chape, ragréage, à coller, pose sur pieds de receveur, étanchéité, etc ...). Lors de la livraison et avant de procéder à l'installation, vérifiez que votre receveur ne présente aucun défaut.
